

ThermWise® Builder Rebates Program

New Construction Rebates

It Pays to Build ThermWise!

Incorporate energy efficiency into the homes you build and get cash back.

Through the ThermWise Builder Rebates Program, Questar Gas® offers cash rebates for installing high-efficiency equipment and building ENERGY STAR® or High Performance Homes.

Appliance and weatherization rebates also available for existing multifamily and single family properties. Refer to ThermWise.com for a complete list of eligible rebates for your existing property.

Participation is easy!

- Step 1:** Sign and submit a Builder Participation Agreement upon initial application.
- Step 2:** Contact a HERs Rater for your ENERGY STAR project. Visit ThermWise.com for a list of HERs Raters in your area and their contact information.
- Step 3:** Build a new single or multifamily home and include one or more energy-efficiency measures.
- Step 4:** Submit the ThermWise rebate application and documentation.

Visit **ThermWise.com** for more information and to download an application.
