

ThermWiseSM Builder Rebates Information

Important: It is the responsibility of the builder to send the completed ThermWiseSM Builder Rebates Application along with copies of the required documents. Rebates will be paid only for completed applications including all required receipts, certificates and reports.

Terms and Conditions

Rebate availability

Questar Gas's ThermWiseSM Builder Rebates Program has been approved by the Public Service Commission of Utah and may be subject to change or modification at any time. All equipment must be new and must be purchased and installed prior to submitting a rebate application and must have been purchased and installed on or after January 1, 2007. Applications must include all information requested. Failure to provide this information may result in the delay or denial of the rebate.

Rebate eligibility

Invoices or receipts are required for each measure except whole home certifications. Rebates for furnaces, water heaters, boilers and/or solar hot water systems installed in newly constructed homes and ENERGY STAR certification rebates will be payable to the home builder only (including owner-builders).

Rebate qualification

if equipment is returned after rebate is paid, Questar Gas will be reimbursed the rebate with penalty including associated legal and/or collection related costs. Qualifying equipment models may be found on ThermWise.com/builders.html or by calling 1-866-699-6034. Equipment must be installed at a newly constructed residence at an address with an active Questar Gas Service Line Agreement. Providing a copy of the Service Line Agreement is recommended to expedite the processing of your application. Qualifying new residences include single-family houses and dwellings with up to four separately-metered units per building located within Questar Gas's Utah service area. Builders in Questar's Wyoming service area are not eligible for builder rebates.

Application details

Questar Gas reserves the right to verify information provided on the application. If your application is selected for verification, it will not be processed until the verification process is satisfactorily completed.

Questar Gas issues rebates in the form of checks, not utility-bill credits. Questar Gas is not responsible if your supplier provides inaccurate information about the amount and/or conditions of the actual rebate and Questar Gas will not pay rebates for equipment that is mislabeled or misrepresented by dealers regarding rebate qualifications. Builders receiving rebates under the ThermWiseSM Builder Rebates Program may not receive equipment purchase and installation rebates for the same equipment under other Questar Gas programs.

Rebate limitations and limitation of damages

Payment of the rebate by Questar Gas does not warrant the performance of qualifying/installed equipment and does not warrant that the qualifying/installed equipment will deliver any specified amount of energy or cost savings. The builder shall independently evaluate any information related to the qualifying equipment. Neither Questar Gas, its parent company, affiliates, subsidiaries, officers, employees, nor its contractors make any warranty, expressed or implied, or assume any legal liability or responsibility for the accuracy, completeness or usefulness of any information, estimated savings, benefits, products or processes disclosed, or represent that its use would not infringe on privately-owned rights. Reference to any specific commercial project, processes, or service by trade name, trademark, manufacturer, or otherwise does not necessarily constitute or imply its endorsement, recommendation, or favoring by Questar Gas, its parent company, affiliates, subsidiaries, officers, employees, or its contractors.
