

UTAH & WYOMING

ThermWise® Rebate Program Builder Participation Agreement

Welcome to the Questar Gas® ThermWise Builder Rebates Program. This is an agreement to become a builder participant in the Questar Gas ThermWise Rebate Program. The program offers rebates to builders of single and multifamily energy-efficient and ENERGY STAR® qualified homes and for the incorporation of high-efficiency appliances in newly constructed single-family residences of four units or fewer or multifamily residences of 5 units or more within Questar Gas's Utah and Wyoming service area.

Terms and Conditions

Rebate availability

The Questar Gas ThermWise Builder Rebates Program has been approved by the Public Service Commission of Utah and the Public Service Commission of Wyoming. All rebates subject to change with 30 days notice. All equipment must be new and must be purchased and installed prior to submitting a rebate application. Completed form and required documentation must be received within six months of occupancy. Applications must include all information requested. Failure to provide this information may result in the delay or denial of the rebate.

Rebate eligibility

Invoices or receipts may be required for each measure except whole home certifications (see application or ThermWise.com for more details). Rebates for newly constructed single or multifamily projects will be payable to the home builder only (including owner-builders).

Rebate qualification

If equipment is returned after rebate is paid, Questar Gas will be reimbursed the rebate with penalty including associated legal and/or collection related costs. Qualifying equipment models may be found on ThermWise.com. Equipment must be installed at a newly constructed residence at an address with an active Questar Gas Meter on the GS rate schedule. Qualifying new residences include single family (1 to 4 units) and multifamily houses (5 or more units) with five or more separately-metered units per building located within the Questar Gas Utah and Wyoming service area. **Completed form and all required information and documentation must be received within six months of customer gas service turn-on to meet eligibility criteria.**

Rebate tax information

Rebates over \$600 will be reported to the IRS by PECL unless you are exempt. Please consult your tax advisor concerning the taxability of incentives. Builder is responsible for any taxes that may be imposed as a result of the receipt of rebates from this program. The 1099 form will be issued for the builder, regardless of who the payee is.

Application details

Builder understands that, in the case of a single family Builder Option 2, ENERGY STAR qualified or High Performance Home, their HERS provider may submit the Application, in the form of an Inspection Worksheet, on their behalf. The Application may be submitted by the builder, if desired. Only one rebate will be paid per site address, however. Builder further understands that there may be inspections on the ThermWise Builder Option 2, ENERGY STAR or High Performance Home they build by a representative of the Program for Quality Control purposes. Questar Gas reserves the right to verify information provided on the application. If your application is selected for verification, it will not be processed until the verification process is satisfactorily completed. Questar Gas issues rebates in the form of checks, not utility-bill credits. Questar Gas is not responsible if your supplier provides inaccurate information about the amount and/or conditions of the actual rebate, and Questar Gas will not pay rebates for equipment that is mislabeled or misrepresented by dealers regarding rebate qualifications. Builders receiving rebates under one ThermWise Rebate Program may not receive rebates for the same equipment or home under other Questar Gas programs.

Rebate limitations and limitation of damages

Payment of the rebate by Questar Gas does not warrant the performance of qualifying/installed equipment and does not warrant that the qualifying/Installed equipment will deliver any specified amount of energy or cost savings. The builder shall independently evaluate any information related to the qualifying equipment. Neither Questar Gas, its parent company, affiliates, subsidiaries, officers, employees, nor its contractors make any warranty, expressed or implied, or assume any legal liability or responsibility for the accuracy, completeness or usefulness of any information, estimated savings, benefits, products or processes disclosed, or represent that its use would not infringe on privately-owned rights. Reference to any specific commercial project, processes, or service by trade name, trademark, manufacturer, or otherwise does not necessarily constitute or imply its endorsement, recommendation, or favoring by Questar Gas, its parent company, affiliates, subsidiaries, officers, employees, or its contractors.
