ThermWise® Builder Rebates Program

Single Family & Multifamily New Construction Application

If you conserve, you can save.®

How do I get a rebate?

- Ensure your eligibility.**
New single family (1 to 4 units) and multifamily (5 or more units) dwellings currently receiving Questar Gas® service on the GS rate schedule are eligible for ThermWise Builder Program Rebates. Please review the Terms and Conditions on the last page for further eligibility details. **Completed form and all required information and documentation must be received within six months of customer gas service turn-on to meet eligibility criteria.**
- Complete your rebate application in just six easy steps.**
Fill out the application in its entirety. All steps are required unless otherwise noted. Rebates will be paid only for completed applications that include all required documents.
- Make a copy of completed application for your records.**
Include a copy of an itemized receipt or invoice for each rebate with your application.
- Submit your application (see last page for instructions).**
Need help? Call the ThermWise Builder Hotline at 866-699-6034 or visit ThermWise.com for answers to frequently asked questions or to download and print applications.

1) Builder Information

Builder name _____ Phone () _____

Mailing address _____

City _____ State _____ Zip _____

Email address (optional) _____

Is this your first application for the ThermWise Builder Program?

If this is not your first application you may skip these next two questions, and move on to step 2.

1. Taxpayer Identification Number* _____
This is **required** for your first application to the ThermWise Builder Program. If you have signed a ThermWise Builder Participation Agreement in the past we should have your I.D. Number on record. Unsure or have questions? Call 866-699-6034.
**Not required for owner builder*
2. List the names of your authorized Home Energy Rater (HERS) organizations that provide ENERGY STAR® new home inspection information on your behalf.

(Please notify the ThermWise Builder Program if there are changes with authorized HERS raters. Applications submitted on your behalf by HERS organizations that are not authorized here will not be accepted by the ThermWise Program.)

2) Site & Household Information

- Single family** - Home, apartment, condominium, townhouse (1 to 4 units)
- Multifamily** - Apartment, condominium, townhouse (5 or more units)

Subdivision _____ Lot # _____ **Meter ID *** _____

Address _____

City _____ State _____ Zip _____

*The Meter ID information can be found on the unit's gas meter. For assistance in locating the meter ID, visit ThermWise.com/builder/MeterID.pdf.

Field verification and supporting documentation by home energy rater (HERS) must be provided.	\$500 / \$300	<input type="checkbox"/> REM/Rate File <input type="checkbox"/> ENERGY STAR documents
ENERGY STAR Version 2.0 Multifamily projects permitted prior to July 1, 2011. Rater certifies with ENERGY STAR Version 2.0. Provide required Rater documentation.	NA / \$250	<input type="checkbox"/> REM/Rate File <input type="checkbox"/> ENERGY STAR documents

- In order to qualify for any of the whole home rebates, the home must have qualifying space and water heating equipment installed. See Section 3.
- Please check the appropriate boxes in the required documents field. By checking the box you or your rater are certifying the home meets the required standards and the submission includes the necessary documentation.
- All items on the checklists shall be completed (must follow most recent ENERGY STAR guidelines; visit energystar.gov for details).
- The REM/Rate File must be included for rebate to be processed. REM/Rate files are available from the HERS rater who evaluated the home. For questions, please call 866-699-6034.

5) Acceptance of Terms

I hereby certify that all information is accurate, including claims of customer and equipment information. I have read all terms and conditions on this application and acknowledge that Questar Gas® may verify all the information provided.

Builder signature _____ Date _____

6) Review and Submit Your Application

After you have reviewed your application, please submit by mail or email:

Mail: ThermWise Builder Rebates Program
P.O. Box 45360
Salt Lake City, UT 84145-0360

Email: Builder@ThermWise.com

Check delivery

Rebate checks are issued within approximately six weeks upon receipt of a completed and approved rebate application.

Terms and Conditions

Rebate availability

The Questar Gas ThermWise® Builder Rebates Program has been approved by the Public Service Commission of Utah. All rebates subject to change with 30 days notice. All equipment must be new and must be purchased and installed prior to submitting a rebate application. Qualifying products purchased on or after January 1, 2012 are eligible for ThermWise Builder Program rebates. Applications must include all information requested. Failure to provide this information may result in the delay or denial of the rebate. Multifamily projects permitted prior to July 1, 2001 may qualify for ENERGY STAR® Version 2.0.

Rebate eligibility

Invoices or receipts are required for each measure except whole home certifications. Rebates for qualifying equipment installed in newly constructed homes and Whole Home rebates will be payable to the home builder only (including owner-builders).

Rebate qualification

If equipment is returned after rebate is paid, Questar Gas will be reimbursed the rebate with penalty including associated legal and/or collection related costs. Qualifying equipment models may be found on ThermWise.com or by calling 866-699-6034. Equipment must be installed at a newly constructed residence at an address with an active Questar Gas Meter on the GS rate schedule. Qualifying new residences include single family (1 to 4 units) and multifamily houses (5 or more units) with five or more separately-metered units per building located within the Questar Gas Utah service area. Builders in Questar's Wyoming service area are eligible for builder rebates. Visit ThermWise.com for details regarding the Wyoming ThermWise Program. **Completed form and all required information and documentation must be received within six months of customer gas service turn-on to meet eligibility criteria.**

Application details

Questar Gas reserves the right to verify information provided on the application. If your application is selected for verification, it will not be processed until the verification process is satisfactorily completed. If a home fails the quality assurance check, Questar Gas reserves the right to withhold the rebate check until infractions are corrected and demonstrated to Program staff.

Questar Gas issues rebates in the form of checks, not utility bill credits. Questar Gas is not responsible if your supplier provides inaccurate information about the amount and/or conditions of the actual rebate, and Questar Gas will not pay rebates for equipment that is mislabeled or misrepresented by dealers regarding rebate qualifications. Builders receiving rebates under the ThermWise Builder Rebates Program may not receive equipment purchase and installation rebates for the same equipment under other Questar Gas Programs.

The builder hereby transfers to Questar Gas all "Environmental Attributes" attributable to the qualifying equipment or its operation. Environmental Attributes means those aspects, claims, characteristics and benefits of avoided energy use associated with the equipment. Environmental Attributes include all environmental benefits, avoided emission characteristics, credits, allowances, reductions, offsets, and benefits associated with the savings of energy and the reduction of generation from non-renewable energy resources, including any avoided emissions of carbon dioxide, methane, and any other greenhouse gases, but do not include any tax benefits or credits associated with the equipment.

Rebate limitations and limitation of damages

Payment of the rebate by Questar Gas does not warrant the performance of qualifying/installed equipment and does not warrant that the qualifying/installed equipment will deliver any specified amount of energy or cost savings. The builder shall independently evaluate any information related to the qualifying equipment. Neither Questar Gas, its parent company, affiliates, subsidiaries, officers, employees, nor its contractors make any warranty, expressed or implied, or assume any legal liability or responsibility for the accuracy, completeness or usefulness of any information, estimated savings, benefits, products or processes disclosed, or represent that its use would not infringe on privately-owned rights. Reference to any specific commercial project, processes, or service by trade name, trademark, manufacturer, or otherwise does not necessarily constitute or imply its endorsement, recommendation, or favoring by Questar Gas, its parent company, affiliates, subsidiaries, officers, employees, or its contractors.
