

ThermWise® Multifamily Rebates

Retrofits & Remodels Application

Invest in ThermWise and save.

Important: Carefully read both sides of application before submitting for rebates. Multifamily weatherization rebates are available for existing properties with primary gas space heating only. It is the responsibility of the applicant to send the completed ThermWise Multifamily Rebates Application along with copies of the required documents. **See application instructions on page 4. Rebates will be paid only for completed applications including all required receipts, certificates and reports.**

Application instructions:

1. **Purchase and install** a qualified product. To find out what products and services qualify, visit ThermWise.com or call 1-866-926-0907.
2. **Complete** all the information requested on this rebate application.
3. **Review** and sign the Acceptance of Terms on page 1 and/or page 2 of this application.
4. **Include a copy of your most recent Questar Gas® monthly bill to expedite the application processing time.** Include a copy of proof of purchase. Proof of purchase is a receipt or invoice that includes all of the following information:
 - Retailer/Contractor name, address and phone number
 - Itemized listing of quantity, description, manufacturer, model number and other identifying information as appropriate
 - NFRC stickers (see below for example) for windows rebates only
 - Purchase date and price
 - Product installation date, if appropriate
5. **Submit** the completed application with copy of proof of purchase to:
Email to: multifamily@thermwise.com
Fax to: 1-800-687-6176
Mail to: ThermWise® Multifamily Rebates
P.O. Box 45360 Salt Lake City, UT 84145-0360
6. **Allow** approximately six weeks from receipt of completed applications including all purchase receipts for your rebate check to arrive.

Terms and Conditions

Rebate availability

Questar Gas' ThermWise® Multifamily Rebate Program has been approved by the Public Service Commission of Utah and may be subject to change or modification at any time. All equipment must be new and must be purchased and installed prior to submitting a rebate application, and must have been purchased and installed on or after January 1, 2008. Applications must include all information requested. Failure to provide this information may result in the delay or denial of the rebate.

Rebate eligibility

Only two rebates paid per unit, per measure. There are no limits to common area installations. Proof of purchase and installation receipts are required for each measure qualifying for a rebate. Measures installed as part of the project's original construction (New Construction) are not eligible for rebates under this program.

Rebate qualification

If equipment is returned after rebate is paid, Questar Gas will be reimbursed the rebate with penalty including associated legal and/or collection related costs. Qualifying rebate measures may be found online at ThermWise.com, or by calling 1-866-962-0907. Customers in Questar's Wyoming service area are not eligible for ThermWise multifamily rebates.

Application details

Applications are subject to verification by Questar Gas. If your application is selected for verification, it will not be processed until the verification process is satisfactorily completed.

The customer hereby transfers to Questar Gas all "Environmental Attributes" attributable to the Qualifying Measure or its operation. Environmental Attributes include any and all credits, benefits, emissions reductions, offsets and allowances, however entitled, resulting from the avoidance of the emission of any substance to the air, soil or water at or by Questar Gas facilities through reduced use or generation of energy or other savings or offsets on account of the Qualifying Measure. The customer will not claim ownership of any Environmental Attributes. As long as the customer at the same time states the Qualifying Measure was made possible with funding from Questar Gas, the customer may claim that it is facilitating the production of the Environmental Attributes attributable to the Qualifying Measure.

Questar Gas issues rebates in the form of checks, not utility-bill credits. Questar Gas is not responsible if your retailer or contractor provides inaccurate information about the amount and/or conditions of the actual rebate, and Questar Gas will not pay rebates for equipment that is mislabeled or misrepresented by dealers regarding rebate qualifications. Applicants receiving rebates under the ThermWise® Multifamily Rebate Program may not receive equipment purchase and installation rebates for the same equipment under other Questar Gas programs.

Rebate limitations and limitation of damages

Payment of the rebate by Questar Gas does not warrant the performance of qualifying/installed equipment and does not warrant that the qualifying/installed equipment will deliver any specified amount of energy or cost savings. The customer shall independently evaluate any information related to the qualifying equipment. Neither Questar Gas, its parent company, affiliates, subsidiaries, officers, employees, nor its contractors make any warranty, expressed or implied, or assume any legal liability or responsibility for the accuracy, completeness or usefulness of any information, estimated savings, benefits, products or processes disclosed, or represent that its use would not infringe on privately-owned rights. Reference to any specific commercial project, processes, or service by trade name, trademark, manufacturer, or otherwise does not necessarily constitute or imply its endorsement, recommendation, or favoring by Questar Gas, its parent company, affiliates, subsidiaries, officers, employees, or its contractors.

Customer responsibilities and tips for hiring a contractor:

- Check contractor's license
- Ask for referrals and obtain multiple bids
- Get a written and itemized estimate and verify accuracy of information including cost, energy savings, square footage and warranty information
- Always have a signed written proposal before work gets started specifying costs, model numbers and job schedule

NFRC sticker
