Customer signature _____ Date _____

6) Review and Submit Your Application

After you have reviewed your application, please submit by e-mail, fax or mail:

E-mail: Appliance@ThermWise.com

Fax: 800-687-6176

Mail: ThermWise Appliance Rebates
P.O. Box 45360
Salt Lake City, UT 84145-0360

Check delivery

Rebate checks are issued within approximately six weeks upon receipt of a completed and approved rebate application.

Terms and Conditions

Rebate availability

The Questar Gas® ThermWise® Rebate Programs have been approved by the Public Service Commission of Utah and Wyoming and may be subject to change or modification at any time. All equipment must be new and must be purchased and installed prior to submitting a rebate application.

If the equipment is installed in a single-family home built prior to 2007, it must have been purchased and installed on or after January 1, 2007 for Utah customers and on or after July 1, 2009 for Wyoming customers.

If the equipment is installed in a single-family home built during or after 2007, it must have been purchased and installed on or after January 1, 2007 for Utah customers and on or after July 1, 2009 for Wyoming customers.

If the equipment is installed in a multifamily dwelling, it must have been purchased and installed on or after January 2008 for Utah customers (rebates for the Multifamily Program are not available to Wyoming customers at this time).

Applications must include all information requested. Failure to provide this information may result in the delay or denial of the rebate.

Rebate eligibility

It is the responsibility of the applicant to send the completed rebate application along with copies of the required proofs of purchase. Only one rebate will be paid per appliance. Proof of purchase and installation receipts are required for each system qualifying for a rebate. For customers applying through the ThermWise Appliance Rebate Program for existing homes, systems must have been purchased and installed after home's original occupancy date. For builders applying through the ThermWise Builder Rebates Program, the system must be installed as part of the home's original construction on or after January 1, 2007 in Utah and on or after July 1, 2009 in Wyoming. Allow approximately six weeks from receipt of completed applications, including all purchase receipts, for rebate processing. For single family dwellings, qualifying products purchased on or after January 1, 2007 are eligible for a rebate. For multifamily dwellings, qualifying products purchased on or after January 1, 2008 are eligible for a rebate.

Rebate qualification

If equipment is returned after rebate is paid, Questar Gas will be reimbursed the rebate with penalty including associated legal and/or collection related costs. Qualifying rebate measures may be found online at ThermWise.com, or by calling 866-699-6032.

Application details

Applications are subject to verification by Questar Gas. If your application is selected for verification, it will not be processed until the verification process is satisfactorily completed.

Questar Gas issues rebates in the form of checks, not utility bill credits. Questar Gas is not responsible if your retailer or contractor provides inaccurate information about the amount and/or conditions of the actual rebate, and Questar Gas will not pay rebates for equipment that is mislabeled or misrepresented by dealers regarding rebate qualifications. Households receiving rebates under the ThermWise Rebate Programs may not receive equipment purchase and installation rebates for the same equipment under other Questar Gas Rebate Programs.

Need help? Call 866-699-6032 or visit ThermWise.com for answers to frequently asked questions and for qualifying products and services.

Terms and Conditions – continued

The customer hereby transfers to Questar Gas all “Environmental Attributes” attributable to the Qualifying Equipment or its operation. “Environmental Attributes” means those aspects, claims, characteristics and benefits of avoided energy use associated with the Equipment. Environmental Attributes include all environmental benefits, avoided emission characteristics, credits, allowances, reductions, offsets, and benefits associated with the savings of energy and the reduction of generation from non-renewable energy resources, including any avoided emissions of carbon dioxide, methane, and any other greenhouse gases, but do not include any tax benefits or credits associated with the Equipment.

Rebate limitations and limitation of damages

Payment of the rebate by Questar Gas does not warrant the performance of qualifying/installed equipment and does not warrant that the qualifying/installed equipment will deliver any specified amount of energy or cost savings. The customer shall independently evaluate any information related to the qualifying equipment. Neither Questar Gas, its parent company, affiliates, subsidiaries, officers, employees, nor its contractors make any warranty, expressed or implied, or assume any legal liability or responsibility for the accuracy, completeness or usefulness of any information, estimated savings, benefits, products or processes disclosed, or represent that its use would not infringe on privately-owned rights. Reference to any specific commercial project, processes, or service by trade name, trademark, manufacturer, or otherwise does not necessarily constitute or imply its endorsement, recommendation, or favoring by Questar Gas, its parent company, affiliates, subsidiaries, officers, employees, or its contractors.

Shopping for a new home?

Ask your builder or realtor about **ENERGY STAR® qualified homes** - designed, built and performance tested to be at least 15% more energy efficient than homes built to Utah code standards.

Time for an upgrade?

With **cash rebates** from Questar Gas and state and federal tax incentives, there's never been a better time to make energy-efficient upgrades to your home. Visit ThermWise.com to learn more.

Not sure where to begin?

Schedule an **in-home energy audit**. For \$25, a Questar Gas technician will visit your home and conduct an energy audit. If you prefer, we can also provide a free **mail-in audit**. Call **800-695-7375** between the hours of 7 AM to 5 PM (MST) Monday through Friday to learn more.
