ThermWise® Home Energy Audits & ENERGY STAR® New Homes Rebates

ThermWise Home Energy Audits

If you want to see how efficient and comfortable your home can be, schedule a home energy audit. For only \$25, a Questar Gas technician will visit your home, conduct a thorough energy efficiency analysis and offer helpful suggestions that can help you save money. Follow through on any of the rebate-qualified recommendations and you'll get the \$25 charge back as a credit on your gas bill.

After completion you get a free audit and you'll be well on your way to saving energy and money for years. To schedule an audit call **800-695-7375** Monday through Friday, 7 a.m. to 5 p.m.

If you prefer to be more hands-on, visit **ThermWise.com** for an audit form you can fill out at home. Send it in and you'll still qualify for the savings.

ENERGY STAR® New Homes

Ready for a fresh start with built-in savings and comfort?

Ask your builder or realtor for a home that has earned the ENERGY STAR label. ENERGY STAR homes are designed, built and performance tested to be at least 15% more energy-efficient than homes built to Utah code standards. They provide homeowners increased value by offering energy savings, enhanced comfort, healthier indoor air, peace of mind and reduced environmental impact.

ENERGY STAR homes achieve energy savings that reduce monthly energy costs through innovative design and high-efficiency features such as performance tested ducts, high performance windows and properly installed insulation. All qualified homes are inspected and certified by an independent third party to meet ENERGY STAR standards.

Visit our interactive ENERGY STAR home at **ThermWise.com** to learn more!
