

UTAH

ThermWise® Appliance Rebates Program

Existing Multifamily Application

(5 or more units)

If you conserve, you can save.®

How do I get a rebate?

Ensure your eligibility.

Carefully read all pages of application before submitting for rebates. **Completed form and itemized receipt must be received within six months of purchase to meet eligibility criteria.** Call 801-324-5159 for questions regarding your application.

Complete application with all specified information.

All fields are required unless otherwise noted. It is important to match each unit with the associated meter ID (for assistance in locating the meter ID visit ThermWise.com/builder/MeterID.pdf)

Review and accept all Terms and Conditions.

Review full Terms and Conditions and sign the Acceptance of Terms.

Include required paperwork.

It is the responsibility of the applicant to send the completed ThermWise Appliance Rebates Program application along with copies of the all required documents.

- Rebate specific documentation is indicated in application
- Include a copy of proof of purchase. Proof of purchase is a receipt or invoice that includes the following information:
 - i. Retailer/contractor name, address, and phone number
 - ii. Itemized listing of quantity, description, manufacturer, model number and other identifying information as appropriate
 - iii. Purchase date and price

Submit complete application by mail or email:

- **Mail:** ThermWise Appliance Rebates Program
P.O. Box 45360
Salt Lake City, UT 84145-0360
- **Email:** Multifamily@ThermWise.com

Keep a copy of your application for your records. Allow approximately six weeks from receipt of completed applications, including all purchase receipts, for application approval and for your rebate check to arrive.

5) Acceptance of Terms

I hereby certify that all information is accurate, including claims of applicant and equipment information. I have read all terms and conditions and acknowledge that Questar Gas® may verify all the information provided.

Applicant signature _____ Date _____

Terms and Conditions

Rebate availability

The Questar Gas ThermWise Appliance Rebates Program has been approved by the Public Service Commission of Utah. All rebates subject to change with 30 days notice. All equipment must be new and must be purchased and installed prior to submitting a rebate application, and must have been purchased and installed on or after January 1, 2012. Applications must include all information requested. Failure to provide this information may result in the delay or denial of the rebate.

Rebate eligibility

Only two rebates paid per unit, per measure. There are no limits to common area installations. Proof of purchase and installation receipts are required for each measure qualifying for a rebate. Measures installed as part of the project's original construction are not eligible for rebates under this Program. **Completed form and required documentation must be received within six months of purchase.**

Rebate qualification

If equipment is returned after rebate is paid, Questar Gas will be reimbursed the rebate with penalty including associated legal and/or collection related costs. Qualifying rebate measures may be found online at ThermWise.com or by calling 866-962-0907. Customers in the Questar Gas Wyoming service area are not eligible for multifamily (5 or more units) rebates.

Application details

Applications are subject to verification by Questar Gas. If your application is selected for verification, it will not be processed until the verification process is satisfactorily completed.

The customer hereby transfers to Questar Gas all "Environmental Attributes" attributable to the qualifying equipment or its operation. Environmental Attributes include any and all credits, benefits, emissions reductions, offsets and allowances, however entitled, resulting from the avoidance of the emission of any substance to the air, soil or water at or by Questar Gas facilities through reduced use or generation of energy or other savings or offsets on account of the qualifying equipment. The customer will not claim ownership of any Environmental Attributes. As long as the customer at the same time states the qualifying equipment was made possible with funding from Questar Gas, the customer may claim that it is facilitating the production of the Environmental Attributes attributable to the qualifying equipment.

Questar Gas issues rebates in the form of checks, not utility-bill credits. Questar Gas is not responsible if your retailer or contractor provides inaccurate information about the amount and/or conditions of the actual rebate, and Questar Gas will not pay rebates for equipment that is mislabeled or misrepresented by dealers regarding rebate qualifications. Applicants receiving rebates under the ThermWise Multifamily Rebate Program may not receive equipment purchase and installation rebates for the same equipment under other Questar Gas Programs.

Rebate limitations and limitation of damages

Payment of the rebate by Questar Gas does not warrant the performance of qualifying/installed equipment and does not warrant that the qualifying/installed equipment will deliver any specified amount of energy or cost savings. The customer shall independently evaluate any information related to the qualifying equipment. Neither Questar Gas, its parent company, affiliates, subsidiaries, officers, employees, nor its contractors make any warranty, expressed or implied, or assume any legal liability or responsibility for the accuracy, completeness or usefulness of any information, estimated savings, benefits, products or processes disclosed, or represent that its use would not infringe on privately-owned rights. Reference to any specific commercial project, processes, or service by trade name, trademark, manufacturer, or otherwise does not necessarily constitute or imply its endorsement, recommendation, or favoring by Questar Gas, its parent company, affiliates, subsidiaries, officers, employees, or its contractors.

Customer responsibilities and tips for hiring a contractor:

- Check contractor's license
- Ask for referrals and obtain multiple bids
- Get a written and itemized estimate and verify accuracy of information including cost, energy savings, square footage and warranty information
- Always have a signed written proposal before work gets started specifying costs, model numbers and job schedule

Why stop here?

Existing multifamily buildings are eligible for a variety of weatherization rebates. To learn more about receiving cash rebates on insulation and windows, visit ThermWise.com.
