

Installations must be completed by a ThermWise Authorized Contractor to qualify for rebates.

UTAH

ThermWise® Weatherization Rebates

Existing Multifamily Insulation Application
(5 or more units)

If you can conserve, you can save.®

IMPORTANT: Carefully read all pages of the application before submitting for rebates. It is the applicant's responsibility to complete the application and submit it with the required supporting documentation. Rebates are available only for customers living in **EXISTING** multi family dwellings (not newly constructed homes) consisting of 5 or more units that have primary gas heating on GS rate schedule. Measures must be installed prior to requesting a rebate. Rebates will not be paid for ineligible or incomplete applications.

How do I get a rebate?

- Ensure your eligibility.**
Carefully read all pages of application before submitting for rebates. Multifamily rebates are available for existing properties with primary natural gas space heating only. **Completed form and itemized receipt must be received within six months of installation to meet eligibility criteria.**
- Complete the required site inspection.**
Have a ThermWise representative do a pre-qualification site evaluation on your property. Call 801-324-5159 to schedule your inspection.
- Complete application with all specified information.**
All fields are required unless otherwise noted. It is important to match each unit with the associated meter ID (for assistance in locating the meter ID visit ThermWise.com/builder/MeterID.pdf). For assistance with your application call 801-324-5159.
- Review and accept all Terms and Conditions.**
Review full Terms and Conditions and sign the Acceptance of Terms on page 4.
- Include required paperwork.**
It is the responsibility of the applicant to send the completed ThermWise Weatherization Rebates Application along with copies of the all required documents.
 - Rebate specific documentation is indicated in application.
 - Include a copy of proof of purchase. Proof of purchase is a receipt or invoice that includes all of the following information:
 - i. Retailer/contractor name, address, and phone number.
 - ii. Itemized listing of quantity, description, manufacturer, model number and other identifying information as appropriate.
 - iii. Purchase date and price
- Submit complete application by mail, email or fax:**
 - Mail: ThermWise Weatherization Rebates Program; P.O. Box 45360; Salt Lake City, UT 84145-0360
 - Email: Multifamily@ThermWise.com
 - Fax: 801-266-4786

Keep a copy of your application for your records. Allow approximately 6 to 8 weeks from receipt of completed applications, including all purchase receipts, for application approval and for your rebate check to arrive.

4) Measure Information

Measure	Rebate Amount	Required Documents
Attic Insulation - Tier 1 ^{1,2} R-19 or higher	\$0.25/sq. ft.	Invoice clearly identifying: <ul style="list-style-type: none"> • R-Value • Square Feet • Insulation Type • Cost
Attic Insulation - Tier 2 ^{1,2} Additional R-11 or higher	\$0.07/sq. ft.	
Wall Insulation ² Minimum increment of R-11	\$0.30/sq. ft.	
Floor Insulation ² Minimum increment of R-19	\$0.20/sq. ft.	
Duct Sealing and Insulation ^{2,3} R-6 or higher	\$100 / job + \$5.25 per linear foot not to exceed a total rebate of \$250 per unit	Invoice clearly identifying all installation, material, linear feet, insulation type, and cost. Duct Application Supplement available at ThermWise.com

¹To qualify for an attic insulation rebate, the final attic insulation level must be between R-38 and R-60. A minimum level of R-19 (Tier 1) must be added and is paid at \$0.25/sq ft. In addition, a rebate of \$0.07/sq ft is available; a minimum additional increment of R-11 (Tier 2) must be added. You must first complete the minimum requirement of Tier 1 prior to being eligible for Tier 2.

²Attic, Wall and Floor Insulation and Duct measures are available for units that have not previously qualified for the same rebate.

³Duct measures must be completed up to the Questar Gas 2012 Duct Sealing and Duct Insulation specifications posted on ThermWise.com.

Questar Gas Meter ID (8 digits)	Street Address	Bld #	Unit #	Measure	Install Date	Installed R-Value	Final R-Value	Sq. ft. Installed (per unit)
12345678 (example)	1140 W 200 S	A	1	Floor Insulation	2/1/2012	R-19	R-38	800 sq. ft.
Total								

The 8-digit Meter ID number must be included to process rebate. The Meter ID number can be found on your Questar Gas bill or on the physical meter. See example below. Meter numbers may correspond with multiple units. Please attach separate sheet for large properties; available at ThermWise.com/business/MF_Wx_Insulation_MeterID.xls.

Customer responsibilities and tips for hiring a contractor:

- Check contractor's license
- Ask for referrals and obtain multiple bids
- Get a written and itemized estimate and verify accuracy of information including cost, energy savings, square footage and warranty information
- Always have a signed written proposal before work gets started specifying costs, model numbers and job schedule
- Ensure that your contractor is a ThermWise Authorized Contractor. See ThermWise.com for a current ThermWise Authorized Contractor list

6) Acceptance of Terms

I hereby certify that all information is accurate, including claims of applicant and equipment information. I understand that I must use a ThermWise Authorized Contractor. I have read all terms and conditions and acknowledge that Questar Gas may verify all the information provided.

Applicant Signature: _____ Date: _____

7) Terms and Conditions

Rebate Availability

The Questar Gas ThermWise Weatherization Rebates Program has been approved by the Public Service Commission of Utah. All rebates are subject to change with 30 days notice. All equipment must be new and must be purchased and installed prior to submitting a rebate application, and must have been purchased and installed on or after January 1, 2012. Applications must include all information requested. Failure to provide this information may result in the delay or denial of the rebate.

Rebate Eligibility

Multifamily dwelling units must have a pre-evaluation inspection and meet all eligibility requirements as outlined in the current weatherization tariff. Proof of purchase and installation receipts are required for each measure qualifying for a rebate. Measures installed as part of the project's original construction (NewConstruction) are not eligible for rebates under this Program. **Completed form and required documentation must be received within six months of installation.**

Rebate Qualification

If material is returned after rebate is paid, Questar Gas will be reimbursed the rebate with penalty including associated legal and/or collection related costs. Qualifying rebate measures may be found online at ThermWise.com, or by calling (801) 324-5159. Customers in the Questar Gas Wyoming service area are not eligible for multifamily (5 units or more) rebates. Measures must be installed by a ThermWise Authorized Contractor.

Application Details

Applications are subject to verification by Questar Gas. If your application is selected for verification, it will not be processed until the verification process is satisfactorily completed.

The customer hereby transfers to Questar Gas all "Environmental Attributes" attributable to the Qualifying Equipment or its operation. Environmental Attributes include any and all credits, benefits, emissions reductions, offsets and allowances, however entitled, resulting from the avoidance of the emission of any substance to the air, soil or water at or by Questar Gas facilities through reduced use or generation of energy or other savings or offsets on account of the Qualifying Equipment. The customer will not claim ownership of any Environmental Attributes. As long as the customer at the same time states the Qualifying Equipment was made possible with funding from Questar Gas, the customer may claim that it is facilitating the production of the Environmental Attributes attributable to the Qualifying Equipment.

Questar Gas issues rebates in the form of checks, not utility-bill credits. Questar Gas is not responsible if your retailer or contractor provides inaccurate information about the amount and/or conditions of the actual rebate, and Questar Gas will not pay rebates for equipment that is mislabeled or misrepresented by dealers regarding rebate qualifications. Applicants receiving rebates under the ThermWise Weatherization Rebates Program may not receive equipment purchase and installation rebates for the same equipment under other Questar Gas Programs.

Rebate limitations and limitation of damages

Payment of the rebate by Questar Gas does not warrant the performance of qualifying/installed equipment and does not warrant that the qualifying/installed equipment will deliver any specified amount of energy or cost savings. The customer shall independently evaluate any information related to the qualifying equipment. Neither Questar Gas, its parent company, affiliates, subsidiaries, officers, employees, nor its contractors make any warranty, expressed or implied, or assume any legal liability or responsibility for the accuracy, completeness or usefulness of any information, estimated savings, benefits, products or processes disclosed, or represent that its use would not infringe on privately-owned rights. Reference to any specific commercial project, processes, or service by trade name, trademark, manufacturer, or otherwise does not necessarily constitute or imply its endorsement, recommendation, or favoring by Questar Gas, its parent company, affiliates, subsidiaries, officers, employees, or its contractors.
