# ThermWise® Rebates Program Builder Participation Agreement

**Build quality. Build value. Build ThermWise.**

Welcome to the Questar Gas® ThermWise Builder Rebates Program. This is an agreement to become a builder participant in the Questar Gas ThermWise Builder Rebates Program. This program offers rebates to builders of single family ENERGY STAR® qualified homes and for the incorporation of high-efficiency appliances in newly constructed single-family residences of four units or fewer within Questar Gas's Wyoming service area.

## Terms and Conditions

### **Rebate availability**

The Questar Gas ThermWise Builder Rebates Program has been approved by the Public Service Commission of Wyoming and may be subject to change or modification at any time. Builders of newly constructed single family homes are eligible to receive rebates for the purchase and installation of high-efficiency equipment and/or for building ENERGY STAR® qualified homes. For rebates under the ThermWise Builder Rebates Program, new equipment purchased and installed and new homes certified as ENERGY STAR on or after July 1, 2009 are eligible. Applications must include all information requested and failure to provide this information may result in the delay or denial of the rebate.

### **Rebate eligibility**

Invoices or receipts may be required for each measure except whole home certifications (see application or ThermWise.com for more details). Rebates for newly constructed single family projects will be payable to the home builder only (including owner-builders).

### **Rebate qualification**

If equipment is returned after rebate is paid, Questar Gas will be reimbursed the rebate with penalty including associated legal and/or collection related costs. Qualifying equipment models may be found on ThermWise.com or by calling 1-866-699-6034. Equipment must be installed at a newly constructed residence at an address with an active Questar Gas Service Line Agreement. Qualifying new residences for the ThermWise Builder Rebates Program include single-family houses and dwellings with up to four separately-metered units per building located within the Questar Gas Wyoming service area.

### **Application details**

Builder understands that, in the case of a single family ENERGY STAR home, their HERS provider may submit the application, in the form of an Inspection Worksheet, on their behalf. The application may be submitted by the builder, if desired. Only one rebate will be paid per site address. Builder further understands that there may be inspections on the ENERGY STAR homes they build by a representative of the Program for Quality Control purposes. Questar Gas reserves the right to verify information provided on the application. If your application is selected for verification, it will not be processed until the verification process is satisfactorily completed. Questar Gas issues rebates in the form of checks, not utility-bill credits. Questar Gas is not responsible if your supplier provides inaccurate information about the amount and/or conditions of the actual rebate, and Questar Gas will not pay rebates for equipment that is mislabeled or misrepresented by dealers regarding rebate qualifications. Builders receiving rebates under one ThermWise Rebate Programs may not receive rebates for the same equipment or home under other Questar Gas Programs.

### **Rebate limitations and limitation of damages**

Payment of the rebate by Questar Gas does not warrant the performance of qualifying/installed equipment and does not warrant that the qualifying/Installed equipment will deliver any specified amount of energy or cost savings. The builder shall independently evaluate any information related to the qualifying equipment. Neither Questar Gas, its parent company, affiliates, subsidiaries, officers, employees, nor its contractors make any warranty, expressed or implied, or assume any legal liability or responsibility for the accuracy, completeness or usefulness of any information, estimated savings, benefits, products or processes disclosed, or represent that its use would not infringe on privately-owned rights. Reference to any specific commercial project, processes, or service by trade name, trademark, manufacturer, or otherwise does not necessarily constitute or imply its endorsement, recommendation, or favoring by Questar Gas, its parent company, affiliates, subsidiaries, officers, employees, or its contractors.
