

UTAH

**THERMWISE® CUSTOM BUSINESS REBATES**  
Simplified Analysis – Post Installation Report (POR) Steam Traps  
Retrofit only. Does not apply to new construction

**Application Instructions**

**IMPORTANT:** Please read this application carefully. It is the applicant's responsibility to complete the application and submit it with the required supporting documentation. Rebates are only available for Questar Gas® General Service (GS) business customers in the Utah service territory. Eligible customers must submit a completed Simplified Analysis - Steam Traps Application. Application must be signed by customer holding Questar Gas account. Please allow 30 business days from receipt of completed application for approval or request for additional information.

1. **Review Program Manual.**
2. **Complete** all the information requested on this Simplified Analysis Application.
3. **Include a copy** of your most recent Questar Gas monthly bill.
4. **Include supporting cost documentation**, in the form of invoices, that includes the following information:
  - Retailer/Contractor name, address and phone number
  - Itemized listing of quantity, size, description, manufacturer, model number and other identifying information as appropriate
  - Invoice date and cost
  - Efficiency requirements documentation
5. **Submit** the completed signed application with all supporting documentation to the address or email below.

**THERMWISE® CUSTOM BUSINESS REBATES**

**Incentive Application: Steam Traps**

**Overview and Eligibility - Retrofit Only**

The ThermWise Business Custom Rebates Program is a demand-side management (DSM) opportunity offered by Questar Gas with the goal of obtaining verifiable, cost-effective, and long-term natural gas savings. Program participants submit project proposals for a firm quantity of natural gas reduction through the installation of demand-side management measures. After installation, review and approval by Questar Gas, customers will receive \$1.00 per therm saved up to 50% of the eligible incurred project cost. The table below lists the required inputs to determine the energy savings associated with Steam Trap upgrades. Please submit the inputs requested below and provide the replacement steam trap specification sheet for supporting documentation.

Steam Trap Inputs			
Total Number of steam traps		Steam system operating pressure (PSI)	
Quantity of steam traps being replaced		Boiler Efficiency (%)	
Steam traps being replaced have been verified as failed (Yes/No)		Steam trap orifice size (Diameter-Fractional Inches)	see table below
Time since last steam trap testing and maintenance		Annual hours of operation for the system	see table below

Orifice Size (Circle One)																															
1/32	1/16	3/32	1/8	5/32	3/16	7/32	1/4	9/32	5/16	11/32	3/8	13/32	7/16	15/32	1/2	17/32	9/16	19/32	5/8	21/32	11/16	23/32	3/4	25/32	13/16	27/32	7/8	29/32	15/16	31/32	1

Annual Operation Hours
