

ThermWise® - Business Custom Simplified Pre-Installation Report - Combined Heat & Power

Promotion Dates: 01/01/2020 - 12/31/2020

Steps to Participate

- Purchase and install a qualified measure where there is an active GS (general service) meter using Dominion Energy services.
- Review the Terms and Conditions on page 2 of this application and sign the Acceptance of Terms at the bottom of this page.
- Include the following documentation:
 - This completed Pre-Installation Report
 - Current IRS W-9 form (located here: <https://www.irs.gov/pub/irs-pdf/fw9.pdf>).
 - A copy of your most recent Dominion Energy bill.
 - A copy of the vendor-provided quote.
 - Feasibility study and/or other technical documentation showing specifications.
 - Keep a completed copy of your entire submission for your record.

Acceptance of Terms

I hereby certify that all information provided is accurate. I have read all terms and conditions on both pages of this application and acknowledge that Dominion Energy may verify all information provided. As a condition of payment, Applicant shall provide a completed Form W-9 identifying the applicant's correct tax information. If there are any changes to information, such as address, a new Form W-9 form must be submitted prior to payment being issued. Payment will be withheld until Applicant has submitted a valid Form W-9 or corrected any identified information mismatches.

Terms and Conditions

Rebate Availability The Dominion Energy®ThermWise® rebate programs have been approved by the Public Service Commission of Utah. All rebates subject to change with 30 days notice. All equipment/supplies (measure) must be new and purchased and installed prior to submitting a rebate application. **Measures must have been purchased and installed on or after January 1, 2020.** Applications must include all information requested. Failure to provide this information may result in the delay or denial of the rebate.

Rebate Eligibility It is the responsibility of the applicant to send the completed rebate application along with copies of the required proofs of purchase (receipt, invoice, etc.). Only one rebate will be paid per installation. Proof of purchase and installation receipts are required for each measure qualifying for a rebate. Allow approximately eight weeks from receipt of completed applications, including all purchase receipts, for rebate processing. Completed form and all required documentation must be received within six months of purchase/installation.

Rebate Qualification If a measure is returned after rebate is paid, Dominion Energy will be reimbursed the rebate with penalty including associated legal and/or collection related costs. Qualifying rebate measures may be found online atThermWise.com. Measures must be installed within the Dominion Energy Utah/Idaho service area. Customers in Dominion Energy's Wyoming service area may be eligible for Wyoming specific measure rebates. VisitThermWise.com for details regarding the WyomingThermWise Program.

Application Details All applications are subject to verification by Dominion Energy. If your application is selected for verification, it will not be processed until the verification process is satisfactorily completed. Dominion Energy issues rebates in the form of checks, not utility bill credits. Dominion Energy is not responsible if your retailer or contractor provides inaccurate information about the amount and/or conditions of the actual rebate and Dominion Energy will not pay rebates for equipment that is mislabeled or misrepresented by dealers regarding rebate qualifications. Customers receiving rebates under one ThermWise program may not receive rebates for the same equipment under any otherThermWise program.

The customer hereby transfers to Dominion Energy all "Environmental Attributes" attributable to the qualifying measure or its operation. Environmental Attributes means those aspects, claims, characteristics and benefits of avoided energy use associated with the measure. Environmental Attributes include all environmental benefits, avoided emission characteristics, credits, allowances, reductions, offsets, and benefits associated with the savings of energy and the reduction of generation from non-renewable energy resources, including any avoided emissions of carbon dioxide, methane, and any other greenhouse gases, but do not include any tax benefits or tax credits associated with the measure.

Rebate Limitations and Limitation of Damages Payment of the rebate by Dominion Energy does not warrant the performance of qualifying/installed measures and does not warrant that the qualifying/installed measure will deliver any specified amount of energy or cost savings. The customer shall independently evaluate any information related to the qualifying measure. Neither Dominion Energy, its parent company, affiliates, subsidiaries, officers, employees, nor its contractors make any warranty, expressed or implied, or assume any legal liability or responsibility for the accuracy, completeness or usefulness of any information, estimated savings, benefits, products or processes disclosed, or represent that its use would not infringe on privately-owned rights. Reference to any specific commercial project, processes, or service by trade name, trademark, manufacturer, or otherwise does not necessarily constitute or imply its endorsement, recommendation, or favoring by Dominion Energy, its parent company, affiliates, subsidiaries, officers, employees, or its contractors.

Consent to Share Information By submitting thisThermWise application, I authorize Dominion Energy Company and its agents to release the information I have included in the application to my electric service provider or another program administrator for the purposes of energy efficiency program administration and project quality assurance purposes. I understand and agree that this information may be used to help determine eligibility for available Dominion Energy Company rebates. I authorize my electric service provider or another program administrator to provide Dominion Energy Company with information provided to me on any incentive application I may have submitted. I understand and agree that references to Dominion Energy, electric service provider and other program administrators also includes their authorized agents and program administrators.

Tax Liability Applicant acknowledges that receipt of any rebate or payment pursuant to this application may result in taxable income to the Applicant, even if Applicant does not directly receive a payment. Applicant is solely responsible for payment and reporting with respect to Applicant's taxes. Applicant should consult his or her own tax advisor with respect to the tax treatment of rebates provided pursuant to application. Nothing in this application or these Terms and Conditions is intended to constitute tax advice and cannot be used for the purpose of avoiding penalties under the Internal Revenue Code.

Rebates are paid by check in US dollars. Checks will be mailed to qualifying customers within eight weeks upon completion of application processing. It is required that you cash the rebate check within 90 days of the issuance date on the check. Excessive submissions constitute fraud and may result in federal prosecution under the U.S. mail fraud statutes (Title 18, USC 1341 and 1342). All submitted materials become property of Dominion Energy and will NOT be returned.

Combined Heat and Power

Facility Overview

Description of facility. Include building use and space type, hours of operation, weekly or seasonal variations, square footage, and any process heating or cooling loads present.

Description of proposed CHP system and how it will fit into the existing building or facility process.

Description of existing mechanical system. Include all boilers, furnaces, heaters, etc. (indicating whether each serves comfort heating or a process load), relevant cooling equipment (especially absorption chillers), and controls capabilities.

Has the facility implemented other electric or gas energy efficiency improvements in the previous two years? List below, whether or not incentives were pursued for those projects. Dominion encourages customers to explore less costly energy efficiency upgrades prior to engaging in CHP projects in order to prevent oversizing the CHP system.

Project Information

Describe the primary thermal application of the CHP system: Include annual or seasonal heating load profile in as much detail as available. If CHP will provide cooling via an absorption chiller, also describe cooling load and load profile.

Describe the primary electric application of the CHP system, i.e. offset grid power, etc.

What is the primary motivation behind your CHP project?

- Save money or energy
 Backup generation/resiliency
 Avoid substation upgrade/can't import more electricity
 Grid independence
 Other: _____

CHP Nameplate

Type of prime mover:

- Reciprocating Engine
 Gas turbine
 Microturbine
 Steam or boiler turbine
 Fuel Cell
 Waste heat to power
 Other

CHP Run Time

- 7 AM - 7PM Monday - Friday
 8AM - 10PM, 7 days
 24 hrs/day
 Same as facility hours of operation
 Other (list hours and days or % of the year): _____

System capacity (kW): _____

Useful thermal energy produced (btu/hr): _____

Fuel input (btu/hr, based on HHV): _____

Combined CHP efficiency (based on HHV): _____

Estimated annual maintenance costs: \$ _____

Commissioning and M&V Plan

All CHP projects are required to undergo a full commissioning and measurement and verification (M&V) process, whose details may vary depending on the size and complexity of the proposed CHP system. The M&V plan shall be mutually agreed upon between the customer and Dominion Energy prior to incentive authorization and shall be carried out by the CHP vendor or a third-party commissioning firm. At a minimum, the M&V plan must include details to confirm the following installation specifications:

- Gross kW output
- Gross heat energy generated by CHP system
- CHP System operating hours
- Net kW output (accounting for parasitic losses)
- Net Heat energy applied to useful thermal application
- Fuel Input to CHP system
- Any other cumulative data needed to confirm seasonal and annual overall plant efficiency

Dominion reserves the right to require more rigorous M&V approaches commensurate with the size of the CHP system and the expected incentive amount.

I understand I will be required to conduct a full commissioning of the CHP project and provide access to results:
